APPLAUSE

“The cries of, ‘Bring back that Hawk guy’ have been resounding here for weeks. You were certainly a big hit at our Annual Conference. The General Session was standing room only, and we would have had to double the space to accommodate all those who wanted to attend your workshop.”

Lyman A. Cousens, Executive Director
Safety and Health Council of Northern New England

“Your wonderful talk on safety was so unique, and your humorous approach to getting the point across was fun and exciting. You really did make an impact on our lives. I was a ‘star’ that day for having picked you, and I thank you for that.”

Sandra R. La Mont, Service Coordinator
Dupont
